

COMBINED SYNOPSIS/SOLICITATION 68HE0126Q0009 - SITE SAMPLING SERVICES

Environmental Protection Agency, Region 8. NAICS 562910, PSC F108.

This is a combined synopsis and solicitation prepared under FAR Subpart 12.6.

This procurement is set aside for HUBZone small business concerns certified by the Small Business Administration under NAICS 562910.

Offerors must be registered and active in SAM.gov and must have completed the annual representations and certifications.

Offerors must hold a current state licence for hazardous waste transport in Colorado and Utah.

Offerors must carry pollution liability insurance of at least \$2,000,000 per occurrence.

SCHEDULE OF SUPPLIES AND SERVICES

3.1 The contractor shall collect and analyse 480 soil and groundwater samples per year across 12 sites.

3.2 The contractor shall deliver validated analytical results within 21 calendar days of sample collection.

3.3 The contractor must use laboratories accredited under the National Environmental Laboratory Accreditation Program.

3.4 The contractor shall maintain chain-of-custody documentation for every sample and provide it on request.

3.5 The contractor shall submit a quality assurance project plan within 30 days of award.

3.6 The contractor should propose field methods that reduce site visits without reducing data quality.

QUOTATION INSTRUCTIONS AND EVALUATION FACTORS

Quotations shall not exceed 20 pages, excluding certifications and the price schedule.

Use 11-point Arial with one-inch margins; submit as a searchable PDF.

Quotations must be emailed to r8.contracts@epa.example.gov by 2:00 PM Mountain Time on 12 November 2026.

Offerors shall complete and return the pricing schedule for the base year and both option years.

Award will be made to the responsible offeror whose quotation is the lowest price technically acceptable.

Technical acceptability will be determined against the sampling methodology, the laboratory accreditation and the staffing plan.
