

NOTICE OF FUNDING OPPORTUNITY NSF-26-551 - SECURE COMPUTING RESEARCH

National Science Foundation, Directorate for Computer and Information Science and Engineering. Assistance listing 47.070.

Estimated total programme funding is \$18,000,000 with approximately 24 awards anticipated.

Applicants must be accredited institutions of higher education located in the United States.

Applicants must have an active registration in SAM.gov and a Unique Entity Identifier before submission.

The principal investigator must hold a full-time appointment at the submitting institution.

Cost sharing is not required and voluntary committed cost sharing is prohibited.

PROGRAMME DESCRIPTION AND AWARD TERMS

II.1 The awardee shall conduct the proposed research over a period of 36 months from the award start date.

II.2 The awardee shall submit annual project reports within 90 days of the end of each project year.

II.3 The awardee must make data underlying published results available in an approved repository within 12 months of publication.

II.4 The awardee shall include a two-page data management plan describing storage, retention and sharing.

II.5 Proposals should describe broadening participation activities and how their impact will be measured.

PROPOSAL PREPARATION AND MERIT REVIEW

The project description shall not exceed 15 pages including figures and tables.

Use a 10-point or larger typeface with margins of at least one inch on all sides.

Proposals must be submitted through Research.gov no later than 5:00 PM submitter's local time on 8 January 2027.

Applicants shall include biographical sketches for all senior personnel in the approved format.

Proposals will be reviewed against the intellectual merit and the broader impacts criteria.

Reviewers will assess the qualifications of the team and the adequacy of the requested resources.
